

Juice Vibe Waskaduwa — Project Delivery

A complete, full-stack digital platform for your tropical juice café — built to reflect the vibrant energy of your brand and serve your customers beautifully.

CLIENT: JUICE VIBE WASKADUWA, BENTOTA, SRI LANKA

PREPARED BY: DULANJAYA LAKRUWAN

JULY 12, 2026 · VERSION 1.0

Project Overview

We are proud to deliver the **Juice Vibe Digital Platform** — a complete, full-stack web solution designed specifically for your tropical juice café in Waskaduwa. This platform brings together a premium customer-facing website, a powerful internal admin dashboard, and a secure backend API, all unified under one cohesive brand identity.

Every element has been crafted to reflect the vibrant, refreshing energy of Juice Vibe — from the tropical color palette and smooth animations to the intuitive ordering flow and professional management tools. Your team can now manage the business digitally, and your customers can explore your menu and place orders with ease.

Live Demo URLs

Your platform is **live and ready to use**. Access each part of the system using the links below — no installation required.

Customer Website

Public-facing storefront for your customers to browse the menu, view the gallery, and place orders.

<https://juice-vibe-waskaduwa-web.vercel.app/>

Admin Dashboard

Internal management portal for staff to handle orders, menu, gallery, and settings.

<https://juice-vibe-waskaduwa-admin.vercel.app/>

API & Documentation

Backend API with interactive Swagger documentation for developers and technical reference.

<https://juice-vibe-waskaduwa-api.vercel.app/api/docs>

 Custom domains (e.g., **juicevibe.lk**) can be connected at any time via the Vercel dashboard — no code changes needed.

What's Included

The platform is organized into three interconnected applications, each serving a distinct purpose in your business operations.

Customer Website

Built with Next.js 16, this mobile-friendly storefront features a hero homepage, full menu with categories and search, a beautiful gallery, and a dynamic shopping cart that persists across sessions. Smooth Framer Motion animations and a tropical color palette bring the brand to life.

Admin Dashboard

A professional management portal for your team, including sales KPIs, order tracking, menu management (items, categories, variants, add-ons), gallery uploads, business settings, and role-based access for Admin, Manager, Cashier, Kitchen, and Editor roles.

Backend API

A secure REST API built with NestJS 11, featuring JWT authentication, rate limiting, full CRUD operations for menu, orders, gallery, analytics, and settings, plus Swagger docs and enterprise-grade security headers.

Technology Stack

The platform is built on modern, battle-tested technologies chosen for performance, scalability, and ease of maintenance. Every layer has been selected to ensure a fast, secure, and reliable experience for both customers and staff.

Layer	Technology
Frontend	Next.js 16.2, React 19, Tailwind CSS v4
Animations	Framer Motion
Backend	NestJS 11, Node.js
Database	PostgreSQL + Prisma ORM
Authentication	Passport.js + JWT (access & refresh tokens)
Image Storage	Cloudinary (optimized CDN delivery)
Deployment	Vercel (Serverless, auto-scaling)
Monorepo	Turborepo + pnpm workspaces

 This stack is fully compatible with Vercel's free tier and Neon's free PostgreSQL plan — keeping your ongoing hosting costs at **\$0/month** for current traffic levels.

Access Credentials

Confidential — Handle with Care: Do not share these credentials over public channels. Change the admin password immediately after first login.

Admin Panel Login

URL: <https://juice-vibe-waskaduwa-admin.vercel.app/>

Email: admin@juicevibe.com

Password: Admin@123

Change this password immediately via the Settings page after first login.

Database Access

Provider: Neon.tech (PostgreSQL)

Project Name: juice-vibe

Access: Via Vercel Environment Variables (secure, not shared publicly)

Database credentials are stored securely in Vercel's encrypted environment — no manual handling required.

Deployment Checklist

Every item in the delivery scope has been completed and verified. The platform is fully deployed and operational.

Task	Status
Customer website built	✓ Complete
Admin dashboard built	✓ Complete
Backend API built	✓ Complete
Database schema designed	✓ Complete
Cloud database provisioned (Neon PostgreSQL)	✓ Complete
Vercel deployment — API	✓ Complete
Vercel deployment — Web	✓ Complete
Vercel deployment — Admin	✓ Complete
Database seeded with initial data	✓ Complete
Cloudinary image upload configured	✓ Complete
Custom domain connected	⌚ Optional

Recommended Next Steps

To get the most out of your new platform, we recommend completing these three steps in order. Each one takes just a few minutes and will fully personalize the system for Juice Vibe.

1 Change the Admin Password

Log in to the admin dashboard and update the default password (**Admin@123**) via the Settings page. This is the most important security step and should be done immediately.

2 Connect Your Custom Domain (Optional)

If you own a domain like **juicevibe.lk**, you can connect it through the Vercel dashboard in minutes. This gives your customers a branded, professional URL to visit.

3 Review & Customize Content

Browse the website and admin panel, and let us know if any colors, text, images, or layout elements need adjustment. Small tweaks can be made quickly to perfectly match your vision.

Support & Maintenance

We're committed to ensuring your platform runs smoothly. Here's everything you need to know about ongoing support, costs, and how to reach us.

Bug Fixes

Any bugs or issues discovered after launch are covered for **30 days** at no additional cost. We'll resolve them promptly.

Technical Support

For any technical questions or assistance, reach out via email or WhatsApp:

devlakruwan@gmail.com

WhatsApp: 071-408-9493

Content Updates

Day-to-day updates — menu changes, new photos, pricing, business hours — can all be managed **self-service** through the admin panel.

Hosting Costs

Your platform runs on free tiers:

Vercel: \$0/month (current traffic)

Neon DB: \$0/month (up to 0.5 GB)

Project Delivery Sign-Off

By proceeding to use the delivered platform, the client acknowledges receipt of all described deliverables as outlined in this document.

Client
